PROFILE

Full-stack web developer studying for a Diploma in Computer Science & Technology at Dinajpur Government Polytechnic Institute. I build modern, user-focused web applications with React, Next.js, TypeScript, Node.js, Express.js and MongoDB, connecting intuitive frontends with reliable backends. Looking for a web developer internship or junior role where I can learn from an experienced team and contribute to real products.

TECHNICAL SKILLS

Frontend	React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Web Development
Backend	Node.js, Express.js, Better Auth, REST API Integration
Database & API	MongoDB, Mongoose, API Design, Database Design, Client-Server Architecture
Engineering	Full-Stack Application Development, Product Development, Problem Solving, AI-driven engineering workflows
Tools	Git, GitHub, Vite, VS Code

SELECTED PROJECTS

BazarDor — Grocery Market Price Tracker

Next.js 16 • TypeScript • Tailwind CSS • HeroUI • Better Auth • MongoDB

- Bangla grocery market tracker for Bangladesh with an infinite-scrolling price ticker, top price risers and fallers, category browsing and bazar-wise price comparisons.
- Built on the Next.js 16 App Router with Better Auth for authentication and MongoDB for data.

Live demo • GitHub • Case study

FitLog — Workout Tracking App

Next.js • TypeScript • Tailwind CSS • DaisyUI

- Dark-themed workout app with a filterable exercise library (muscle group, equipment, difficulty), workout detail pages, daily plans and saved exercises.

Live demo • GitHub • Case study

DevStack Builder — Technology Stack Builder

React • TypeScript • Tailwind CSS • Vite

- Responsive app for exploring frontend, backend, database and dev-tool catalogs and assembling a personalized stack, with add/remove interactions, duplicate selection prevention and toast feedback.

Live demo • GitHub • Case study

JavaScript Problem-Solving Practice

JavaScript

- Public repository of JavaScript fundamentals and problem-solving exercises.
